

Challenges for civic tech
and governments now

redecentralize.org

I have some bad news

Open data is not the solution

Governments are too slow

Technology is eroding away at the fabric of
society

Open data

Governments

Technology

Surveillance capitalism

Digital monopolies

Trust

Redecentralize

Autonomy

Diversity

Privacy

Coalitions and communities

Research and experimentation

Policy and advocacy

A digital world which serves the needs of
people above companies

Thank you
